

Intelligence Community Staff

GS-17, Deputy, MPRRD

This officer is the Deputy to the Chief, MPRRD, an Executive Pay Scale Level 5 Officer. He is responsible for coordinating the inter-related functions of the three branches comprising MPRRD - planning, program and budget review, and research and analysis - each headed by a supergrade officer. This coordination function entails direct supervision over the development and production of the key reports and products of the Division, including the DCI National Foreign Intelligence Program recommendations to the President, program presentations for the DCI appearances before the appropriations committees of Congress and other resource-related summaries and evaluations reflecting the activities and effectiveness of the entire intelligence community. His focus is largely in managing the initial work of MPRRD - the nature of which places him in contact with ranking officers of the services, USIB, and the like.
